AMERICAN STATISTICAL ASSOCIATION
Promoting the Practice and Profession of Statistics®

Statistics and Data Science in Aging Interest Group

The American Statistical Association Statistics and Data Science in Aging Interest Group is a new Interest Group open to anyone interested in statistics and data science and their applications in aging research.

One does not have to be a member of the American Statistical Association to be a member of the Interest Group. There are no dues for membership, but we do accept contributions.

Our charter's objectives:

➢ To serve as the primary group at ASA for furthering methodological and substantive activity in statistics and data science related to aging research.

➢ To partner with other organizations to further such research.

➢ To partner with other interest groups, and with sections and chapters, of the American Statistical Association, to further such activity.

➢ To gather statisticians, data scientists, and other aging researchers to provide a platform for sharing expertise and experiences.

➢ To sponsor educational activities consistent with the interests of the members of the Interest Group.
