ARISE: Aging Research – Innovations in Statistical Exploration

Welcome to **ARISE** — a program of the ASA Statistics and Data Science in Aging Interest Group!

Are you a promising student developing innovative data science methods with applications in aging research? Or a young scientist with a cutting-edge dissertation or competition-winning project? Submit your work for a chance to present in our inaugural webinar series!

REGISTER HERE: https://forms.gle/EUrtnrFyNiuoj2Mf7

The top three projects will be awarded **gold**, **silver**, and **bronze** medals, and all selected presenters will receive a **finalist certificate**.

Results will be announced in July 2025.

Join us for a vibrant showcase of emerging talent and fresh ideas in aging research, running from **August to December 2025**.
